

Preparation of Work

Outline of Body Repair	2-2
General Safety Precaution	2-3
Accurate Inspection of Damaged Parts (Visual)	
Description	2-4
Measurement	2-5
Reshaping	
Correction of the Damaged Area	2-6
Replacement	
Removal	2-7
Installation	2-8
Rust Prevention / Paint	2-10
Installation and Inspection	2-11
Aluminum Alloy Repair	
Safety Precautions	2-12
Welding Methods	2-13
Welders	2-15
Filler Metals	2-16
Examples Repair Tools	2-17
MIG Welding Conditions	2-20
Plug Welding Procedures	2-23
Butt Welding Procedures	2-29
Fillet Welding Procedures	2-35
Weld Area Finishing	2-38
Crack Inspection	2-39
Crack Repair	2-40
Body, Frame Area Shaping	2-41
Skin Panel Area Shaping	2-43
