On December 29, 2007, a federal court provided final approval of the settlement of a class action lawsuit alleging that the odometers on certain 2002 through 2006 Honda models, and some 2007 Fit models, were overstating mileage. As part of the settlement, American Honda is extending the mileage-based coverage period of all warranties, Honda Care Service Contracts, and Honda Certified Used Vehicles by 5 percent on the above referenced vehicles.

**The time limits for all warranties are unchanged.**

**VEHICLES AFFECTED**

The vehicles affected by this settlement include certain 2002 through 2006 Honda models and some 2007 Fit models **purchased or leased between April 13, 2002, and November 7, 2006**. The affected region is the United States (including the District of Columbia, Puerto Rico, and the U.S. Virgin Islands). Affected vehicles registered to customers with a military or a NATO address are also included in this settlement.

**The most effective way to check a vehicle's warranty coverage is by a VIN status inquiry.**

**CUSTOMER NOTIFICATION**

American Honda notified affected customers by mail or publication. The notices were sent to original registered purchasers, informing them of the terms of the settlement. Notice was also published in a national newspaper.

**Information Center: (888) 888-3082**

**CORRECTIVE ACTION**

On affected vehicles, the settlement requires you to honor a 5 percent increase in the mileage coverage period for all warranties, all Honda Certified Used Vehicles, and those Honda Care Service Contracts purchased only by the original owners.

**WARRANTY CLAIM INFORMATION**

Use the chart below as a reference for converting most standard warranty mileage limits to the extended mileage coverage.

Use the chart on page 2 as a reference to all service bulletins affected by the extended mileage coverage.

In addition to the 5 percent mileage increase in warranty coverage, any repair performed after warranty expiration may be eligible for goodwill consideration by the District Parts and Service Manager or your Zone Office. You must request consideration, and get a decision, before starting work.
