Title: FRONT SUSPENSION: FRONT SHOCK ABSORBER: INSPECTION; 2023 - 2024 MY Prius Prius Prime [12/2022 -]		

INSPECTION

PROCEDURE

1. INSPECT FRONT SHOCK ABSORBER ASSEMBLY

- (a) Compress and extend the front shock absorber assembly rod 4 times or more.

Standard:

When compressed and extended at a constant speed, the stroke of the shock absorber rod is smooth with no abnormal resistance or sounds. When extended, the shock absorber rod returns to its original position at a constant speed with no abnormal sounds.

- (b) If there are any abnormalities, replace the front shock absorber assembly with a new one.
