Title: WINDOW / GLASS: POWER WINDOW MASTER SWITCH: INSPECTION; 2023 - 2024 MY Prius Prius Prime [12/2022 -]		

INSPECTION

PROCEDURE

1. INSPECT MULTIPLEX NETWORK MASTER SWITCH ASSEMBLY

(a) Check that the LEDs illuminate.

(1) Apply Auxiliary battery voltage to the multiplex network master switch assembly and check that the LED illuminates.

OK:

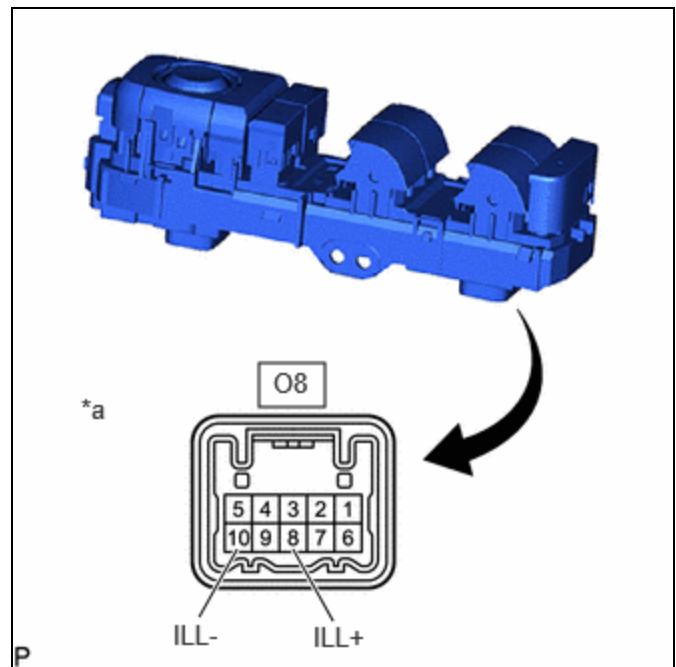

[Click Location & Routing\(O8\)](#)

[Click Connector\(O8\)](#)

TESTER CONNECTION	SPECIFIED CONDITION
Auxiliary battery positive (+) → O8-8 (ILL+)	LEDs illuminate
Auxiliary battery negative (-) → O8-10 (ILL-)	

If the result is not as specified, replace the multiplex network master switch assembly.

*a	Component without harness connected (Multiplex Network Master Switch Assembly)
