Model Year Start: 2023	Model: Prius Prime	Prod Date Range: [12/2022 -]
Title: WIPER / WASHER: WIPER AND WASHER SYSTEM: PRECAUTION; 2023 - 2024 MY Prius Prius Prime [12/2022 -]		

PRECAUTION

PRECAUTION FOR DISCONNECTING CABLE FROM NEGATIVE AUXILIARY BATTERY TERMINAL

NOTICE:

After the ignition switch is turned off, there may be a waiting time before disconnecting the negative (-) auxiliary battery terminal.

PRECAUTION FOR WASHER NOZZLE ADJUSTMENT

(a) Do not clean or adjust the washer nozzle with a safety pin, etc. because:

- (1) The washer nozzle tip is made of resin and may be damaged.
- (2) Adjustment is not necessary for this spray type washer nozzle. If it is necessary to change the nozzle angle, replace the washer nozzle with one that has a different nozzle angle.

(b) If the washer nozzle is clogged with wax, etc., remove it and clean the nozzle hole with a soft resin brush or other cleaning tool.

PRECAUTIONS FOR RAIN SENSOR (w/ Auto Wiper System)

- (a) When the ignition switch is ON and the front wiper switch is in the AUTO position, the rain sensor may operate the front wipers if the rain sensor sensing portion of the windshield glass is touched by a hand or if something moist, such as a wet cloth, is brought near. This may lead to injury or damage to the vehicle.
- (b) When the ignition switch is ON and the front wiper switch is in the AUTO position, the rain sensor may operate the wipers if the rain sensor or parts around the rain sensor (windshield glass, rain sensor cover, etc.) are vibrated.
- (c) If the windshield glass is coated with a water-repellent coating, the rain sensor may not correctly detect the amount of raindrops that strike the windshield and the auto wiper system may not operate normally.
- (d) As the rain sensor is an optical sensor, if sunlight intermittently strikes the windshield glass or the rain sensor sensing portion of the windshield glass is dirty, the auto wiper system may not operate normally.
- (e) The rain sensor cannot operate if the front wipers are stopped in any position other than the park position.

PRECAUTIONS FOR REAR CAMERA WASHER SYSTEM (w/ Rear Camera Cleaner System)

(a) After replacing the parking assist ECU or rear television camera assembly, it is necessary to set the camera cleaner setting to ON.
