Title: SETUP: WHEN REPLACING OR REMOVING/INSTALLING PARTS: UPDATE ECU SECURITY KEY; 2023 - 2024 MY Prius Prius Prime [12/2022 -]		

UPDATE ECU SECURITY KEY

UPDATE ECU SECURITY KEY

NOTICE:
- It is necessary to log in to the Toyota server to perform an ECU security key update.
- Users other than Toyota dealers can log in with a guest account issued when an ECU is ordered.

(a) When using the GTS

    (1) Enter the following menus: System Select / Health Check.

   (2) Check whether "ECU Security Key: Necessary" is displayed in the upper right corner of the GTS screen.

*a	GTS Health Check Screen
*b	"ECU Security Key: Necessary"

    (3) If "ECU Security Key: Necessary" is displayed, follow the prompts on the GTS screen to update the ECU security key.

*a	GTS Health Check Screen
*b	Perform ECU Security Key Update Icon

    (4) When the ECU security key update is completed, enter the following menus: System Select / Health Check.

    (5) Check that "ECU Security Key: -" is displayed, and clear the RoB.

| *a	GTS Health Check Screen
*b	"ECU Security Key: -"

NOTICE:

If "ECU Security Key: Necessary" is displayed in the upper right corner of the GTS screen, perform the ECU security key update again.
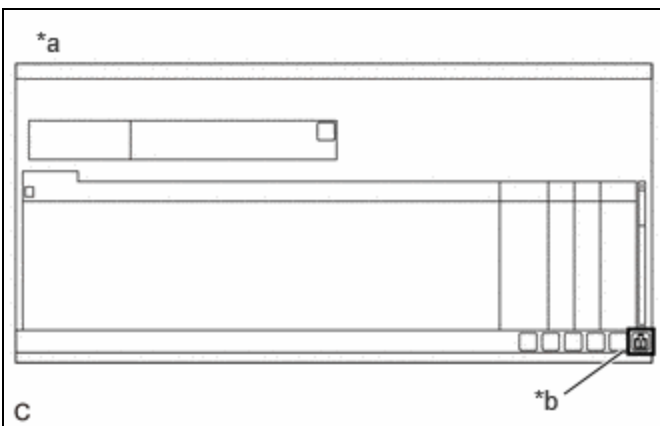

(b) When using the GTS+

(1) Enter the following menus: System Select / Health Check.

(2) Check whether "ECU Security Key: Necessary" is displayed in the upper right corner of the GTS+ screen.

| *a	GTS+ Health Check Screen
*b	"ECU Security Key: Necessary"

(3) If "ECU Security Key: Necessary" is displayed, follow the prompts on the GTS+ screen to update the ECU security key.

| *a | GTS+ Health Check Screen |
| *b | Perform ECU Security Key Update Icon |

(4) When the ECU security key update is completed, enter the following menus: System Select / Health Check.

(5) Check that "ECU Security Key: -" is displayed, and clear the RoB.

| *a | GTS+ Health Check Screen |
| *b | "ECU Security Key: -" |

NOTICE:

If "ECU Security Key: Necessary" is displayed in the upper right corner of the GTS+ screen, perform the ECU security key update again.
