**Bumpers - Insight**

**FRONT BUMPER REMOVAL/INSTALLATION**

- NOTE:**
- **Have an assistant help you remove and install the front bumper.**
  - **Take care not to scratch the front bumper and body.**
  - **Put on gloves to protect your hands.**

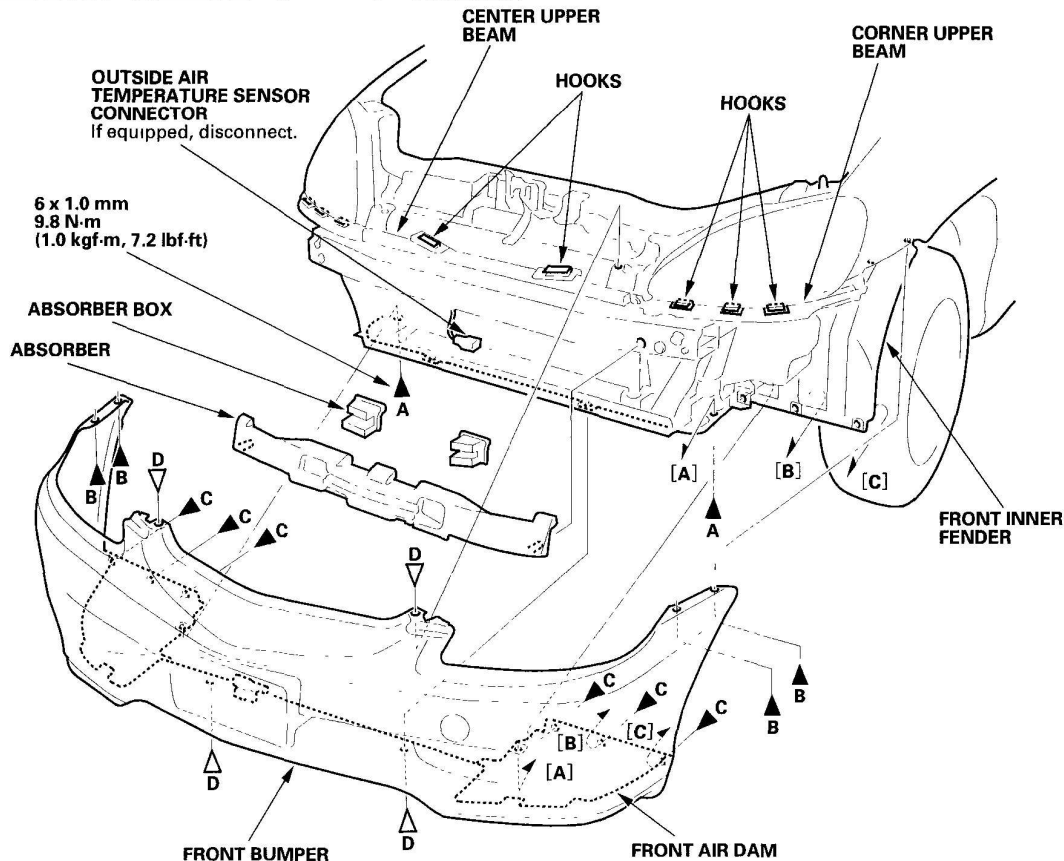

1. Remove the front inner fender from each side as necessary (see **FRONT INNER FENDER REPLACEMENT** ).
2. Remove the front bumper as shown.
3. Install the bumper in the reverse order of removal, and note these items:
  - If equipped, make sure the outside air temperature sensor connector is plugged in properly.
  - Make sure the front bumper engages the hooks of the center and corner upper beams securely.
  - Check for damaged or stress-whitened clips, and replace them with new ones.

### FRONT AIR DAM REPLACEMENT

**NOTE:** Take care not to scratch the front bumper.

1. Remove the front air dam as shown.
2. Install the front air dam in the reverse order of removal, and note these items:
  - Before installing the air dam, clean the front bumper bonding surface with alcohol, and apply primer.
  - If the old air dam will be reinstalled, scrape off the double-sided adhesive
