Hood - Insight

ADJUSTMENT

1. Slightly loosen each hood hinge bolt.
2. Adjust the hood alignment:
 - Adjust the hood right and left, as well as forward and rearward, by using the elongated holes on the hood hinge (A).
 - Adjust the hood edge cushions (B) in or out to make the hood fit flush with the body at the side edges.

3. Adjust the hood latch (C) to obtain the proper height at the forward edge, and move the hood latch right or left until the striker (D) is centered in the hood latch.
4. Tighten each bolt securely.
5. Check that the hood opens properly and locks securely.
6. Apply touch-up paint to the hinge mounting bolts and around the hinges.

2. Install the seal in the reverse order of removal, and note these items:
 - Check for damaged or stress-whitened clips, and replace them with new ones.
 - Push the seal clips into place securely.

HOOD INSULATOR REPLACEMENT

- NOTE:**
- **Take care not to scratch the hood.**
 - **Use a clip remover to remove the clips.**

1. Remove the hood insulator as shown.
2. Install the insulator in the reverse order of removal, and note these items:
 - Check for damaged or stress-whitened clips, and replace them with new ones.
 - Push the clips into place securely.
 - Make sure the windshield washer tubes are connected properly.
